

Considering the
atmosphere of
most hospitals,
it's no wonder babies are born
kicking and screaming.

What a difference a little personal touch can make. From the moment you walk into St. Mary Medical Center, you'll notice how unique our approach to delivering babies really is. It's not just because our birthing rooms feel more like bedrooms than the typical hospital wards. Nor is it because each room comes complete with floral decor, private bathrooms, audio-visual equipment and wood headwalls that keep all medical equipment out of sight until needed. But more importantly, our biggest difference is in the way our entire staff works to make your stay as comfortable as humanly possible for your entire family. Including its newest member. To find out more about our doctors, our Beginnings Baby Club, or to take a tour, call our Family Birth Center Program at 310-491-3532.

St. Mary Medical Center

1050 Linden Ave., Long Beach, CA 90803

Secluded.
Comforting.
Intimate.
Actually, it's settings like this
that got you into this
situation in the first place.

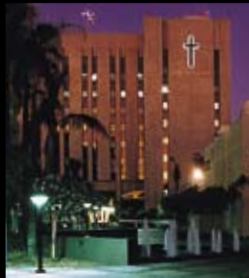

There's just something special about delivering your baby at St. Mary Medical Center. Maybe it's the way our birthing rooms are designed with floral decor that feel more like bedrooms than hospital quarters. Or perhaps it's the fact that each room comes complete with a private bathroom, audio-visual equipment and wood headwalls that keep all medical equipment out of sight until needed. Or better yet, what sets us apart could be the way you can work with one of our doctors to tailor-make the details of the whole experience. After all, who says you can't be swept off your feet by a hospital? To find out more about our doctors, our Beginnings Baby Club, or to take a tour, call our Family Birth Center Program at 310-491-3532.

St. Mary Medical Center

Spacious rooms.
Dedicated staff.
Private bathroom.
About as comfortable
as you can be
considering what you'll be doing.

What is it about delivering your baby at St. Mary Medical Center that feels more like you're staying at a fine hotel than a hospital? It could be because our birthing rooms are anything but the typical cold hospital bunkers. Instead, each room is completely private, designed in a home-like floral decor, and filled with amenities like private bathrooms and audio-visual equipment. And we've installed carefully designed wood headwalls to keep all medical equipment out of sight until needed. But perhaps, what's more important is the way our doctors and staff work to make sure your stay is as comfortable as can be. Including the labor part. To find out more about our doctors, our Beginnings Baby Club, or to take a tour, call our Family Birth Center Program at 310-491-3532.
