

We thought about  
slipping George Clooney's  
name into our list  
of doctors just to see  
if anyone was  
paying attention.

What's in a name? Well, unless you're dealing with a celebrity, not enough. The same is true if you're picking a doctor. You just can't make an informed choice by looking at a random list of names like the one below.

That's why it's a good idea to give us a call before you try to decide. With over 400 doctors on staff, we can give you the information you need to find the right doctor for you and your family, right over the phone. So you can learn more about your options. And turn one of these complete strangers into a regular household name. For more information, call our Physician Referral Line at 310-491-4747.
